The URL below should be a public download to a zip file that I moved onto Google Drive after I stopped using Dropbox. The code is 10 years old, so admittedly I am not certain if it still works, but perhaps it can provide some guidance.

Also, if memory serves, I was able to find the Zip Code -> EPS Market assignment via a Google search. I only mention this because I do wonder if the CollegeBoard has made changes to the market definitions.

Regardless, I hope this helps.
